Sahara Mine

FROM: Holland Shepherd

SUBJECT: Pending Reclamation of Sahara Site

DATE: 6-4-91

I spoke to Mr. Scott Hill today concerning the pending reclamation of the Sahara mine. Mr. Hill is a member of the claim holders group involved with the Sahara or portions of. His group would like to maintain some of the mine features; power lines, access road, well, maybe ponds, maybe portal. I informed Mr. Hill that I would contact Energy Fuel (operator) and have them hold off reclamation thru the month of June. This would give the claim holders group time to make arrangements to permit the site.
