According to my sources in Atlanta the LOC was amended by the bank and sent out yesterday. The contract and Notice of revision are being fedexed today to Hedberg.

Subject: Reclamation Surety - Eagle Canyon - M/0

Mr. Harms: I need to inform you that we will also need a replacement Reclamation Contract, which the reclamation surety is directly tied to. The new contract will need to show the total acreage, the total bond amount, the two types of sureties (w/numbers), and of course, a new legal description w/map. Any other updates (i.e. officers, etc.).

You can download the Reclamation Contract (MR-RC) off the web: www.ogm.utah.gov or call me and I can mail one out to you.

Thank you.

Joelle
