Dear Mr. Wright

Re: Determination of Completeness, Permit Renewal, Belina Complex,
ACT/007/001, Folder #2, Carbon County, Utah

The Division has reviewed the information received thru February 27, 1990, in response to the Division's Initial Completeness Review. The information has been found to be adequate to determine the Mining and Reclamation Plan (MRP) administratively complete. A technical review has been initiated. Technical deficiencies will be forwarded to Mr. Steve Tanner as individual reviews are completed. Issues raised will need to be resolved prior May 24, 1990. It is anticipated that the Division will complete the technical analysis review by March 27, 1990. As discussed with Mr. Steve Tanner, please submit six additional copies of the MRP to the Division by March 24, 1990.

At this time the applicant should publish a Notice of Application for Permit Renewal as required by R614-300-121. A copy of the publication notice should be sent to the Division as soon as it is available. The Division will notify all other interested agencies and allow for their comment prior to making a final decision to approve or disapprove the renewal application.

Please feel free to contact me or Rick Summers if you have questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lynn M. Kunzler'.

Lynn M. Kunzler
Acting Permit Supervisor
