RE: San Rafael Quarry Notice of Intention to Commence Large Mining Operations

Dear Mr. Gallegos:

United States Gypsum Company currently holds legal mining claims along the western edge of the San Rafael Swell area in central Utah, and is in the process of obtaining the permits necessary to access and conduct mining operations in the area. Please find enclosed our Notice of Intention (NOI) to Conduct Large Mining Operations (Section 1 in the 3-ring binder) which was prepared pursuant to Utah Code Annotated 40-8-1 to -23 for the proposed San Rafael Quarry. For your information, we have included the Plan of Operations (POO) (Section 2) prepared for the U.S. Bureau of Land Management and a technical report (Section 3) that contains additional environmental information concerning the proposed operations. Section 4 is a Mining Safety and Health Administration-approved training program; Section 5 contains maps and exhibits to support the POO and NOI.

Please feel free to call me if you need any additional information concerning this submittal. We look forward to working with you and appreciate your time on this project.

Sincerely,

Brett Webster

Brett Webster
Quarry/Mill Manager
