RE: Site Inspection, MCW Enterprises, Gold Queen Project, S/017/035, Garfield County, Utah

Date of Inspection: June 27, 2000
Time of Inspection:
Conditions: Sunny, hot
Participants: Buzz Rakow, BLM; Tom Munson, DOGM

Purpose of Inspection: To inspect site while in the area

This site was formerly permitted under Green River Holding, Inc., but has been taken over by Kim Wilson of MCW Enterprises. This project is located in Million Dollar Gulch area. There is an area approximately 2-3 acres (probably more like 3 acres) of old ponds and material that was pushed around by Gill Kotilla of Green River Holdings. Since Mr. Wilson has agreed to take over this project and the reclamation responsibility, he should reshape the drainage and push some of the material off to the sides, remove debris which looks like pieces of equipment, a half track which sits up on top, and some other miscellaneous pumps or trommel, etc. that are sitting out on the flat on the road. The BLM would like Mr. Wilson to consolidate this miscellaneous equipment or remove it from Public Lands.

Photos were taken of the site, but I did not GPS the site due to time constraints.
