INSPECTION REPORT COMMENTS  
(continuation sheet)

Page 2 of 2

PERMIT NO. ACT/007/001 INSPECTION DATE 6/21/91

(Comments are Numbered to Correspond with Topics Listed Above)

1. Permit - Reviewed the surface facilities map during field inspection. The map was accurate, but additional detail is needed to topsoil piles.

4a. Stream channel diversions - The stream channel diversions were being cleaned throughout the property as a yearly maintenance procedure.

4c. Sediment ponds and impoundments - At the time of the inspection there were no water discharges from the sediment ponds. Ponds were inspected for erosion and pond 002A had the beginning of erosion at the inlet. The operation would take care of it as soon as possible. Pond 005A cell No. 1 was cleaned out since last inspection.
