NOTICE
OR
PLAN OF OPERATIONS
(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions to Claimant/Operator: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five (5) acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate (maps or sketches are required for submitted plans of operations and are recommended, but not required for submitted notices). A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form and submission to the appropriate BLM office.

Operator Information:

Name	Address	Telephone
ASH GROVE CEMENT WEST INC. P.O. BOX 51 NEPHI, UT 84648		(801) 857-2380

Claimant Information (If different than operator):

Name	Address	Telephone
same		

Claim Information (Claim names, circle claim types (Lode) Placer, Mill Site, Tunnel), BLM Serial Number):

AL#1 UMC 279003
AL#2 UMC 279004

Location of Proposed Activity (i.e. Township, Range, Section):

SW 1/4 Section 25, T12S, R2-1/2 W

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

Existing disturbance includes the access road to County Canyon which is unimproved. Other disturbance includes tracks left from exploration drilling across the claims.

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.). List all mechanized earth moving equipment to be used during the operation and state if any explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing existing surface disturbances, structures, facilities, etc., and the location and size of areas where surface disturbance are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 AC. = 43,560 sq. ft.).

3/4 acres to be disturbed

Date Operations are Proposed to Commence as Outlined in this Submittal - (Month, Day, Year): 8/26/91

Access Routes (Existing and Proposed)

The existing access route is outlined on attached Map #2.

Proposed Operations

Build a 12 foot wide haul road from AL#2 to the southwest corner of Section 25, T12S, R2½W. The road would be built utilizing a combination of a bulldozer and road grader.

Proposed Completion Date

Sept. 6, 1991

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated.

The proposed work will create an improved access to the claims which can be utilized in future mining endeavors. All crossed drainages will be culverted.

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measure will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

G Duane Crutchfield
Signature of Claimant or Operator

Date

Notice to Claimants/Operators:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 days before commencing operations. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a plan and will notify the claimant/operator of the status of the plan within 30 days of receipt.

2. Approval of a plan of operations does not constitute certification of ownership to any person named as claimant/operator herein, nor does approval constitute recognition of the validity of any mining claims named herein.

3. Information and data submitted and specifically identified by the operator as containing trade secrets of confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately by the BLM and will not be available for public inspection.

4. Failure of an operator to file a notice under 3809.1 - 3 or a plan of operations under 3809.1 - 4 will be subject to the operator, at the discretion of the authorized office, to being served a notice of non-compliance or enjoined from the continuation of such operations by a court order until such time as a plan or notice is filed with the authorized officer.

INTER-OFFICE MEMO

Date: July 30, 1991

To: Duane Crutchfield

From: Terry Kerby

Subject: COUNTY CANYON (MANNING) CLAIMS ASSESSMENT WORK

To prepare these claims for a test burn on the high alumina shale we need to build approximately 4000 feet of road. I would propose we begin construction on the 2000 feet of road shown on the geological map attached. This road would extend from AL#2 to the southwest corner of Section 25, Township 12 South, Range 2-1/2 West. Due to the unique arrangement of sections in the area (two state school sections are adjacent to Section 25), we will need to get permission to cross this ground prior to the test burn. We should begin requesting permission to cross this property along the common section line for 650' into Section 1, Range 3 West, T13S. When permission is received we can proceed with the final 2000 feet of road to the existing access road which ends approximately where the asterisk (*) is located on the map.

The initial 2000 feet should be started as soon as the BLM has given 15 days notice approval for the project. This will fulfill assessment requirements for 1990-91. Hopefully permission and final road work can be completed after the assessment deadline is past.

If this proposal is acceptable, we will immediately send the enclosed permission request form to the BLM for approval.
