Todd,

would the BLM feel comfortable about releasing the bond at the West Desert site?

The Operator has nor requested bond release. We are thinking about suggesting to the Operator that he apply for bond release. That way we could close out the project.

Wayne

We are close to finishing an EA for a Community Pit at the site, which is already on the Master Title Plat.. BLM may not agree to the actual release until the EA and DR are complete. I will push it along. It would be great to close the project.

I am not sure how long the bond release takes at DOGM but I think it is quicker than BLM. I will address this in our bi-weekly NEPA meeting on Monday.
