Dear Ms. Falvey:

Attached are updated summaries of water quality data collected for Valley Camp of Utah, Inc. through April 21, 1993.

An attempt was made to collect a water quality sample from each of the seven surface and eight ground water monitoring sites. Due to deep snow cover only four monitoring sites (VC-1, VC-2, VC-5 and VC-10) were accessible.

The next monitoring is scheduled to be completed within the next two weeks.

Please call if you have questions concerning the data or if we may be of other assistance.

Sincerely,

A handwritten signature in cursive script that reads 'Jerry V. Hansen'.
