re. Reclamation: Cactus 1/Serendipit 6/
Cherie 3, 50230076, Juab Co., UT

As per our conversation on 3-2-07, reclamation on Cactus 1 and Serendipity 6 was completed three years ago.

Reclamation on the Cherie 3 claim will be completed this spring. I have talked to Tom Munson regarding this claim several times in the past few months. Two trenches on the claim (60' x 15') will be filled in with an excavator by Mark Johnson of Delta, Ut. and surface re-seeded.

The weather has been bad lately and more damage would be done to the roads during mobilization due to muddy conditions.

Reclamation will be completed on Cherie 3 as soon as conditions permit - definitely before June 1, 2007.

Sincerely
Larry E. Lehto
