AMERICAN FORK, UTAH 84003

Dear Mr. Young:

The Bureau of Land Management (BLM) Fillmore Field Office (FFO) has completed the review of your plan of operations. At this time the BLM-FFO finds that the plan of operations is complete and authorizes the operation. This plan of operations has been given BLM serial number UTU-079862, please use this to reference this file from this point forth.

Prior to changing your operations from those described within the plan of operations, you are required to modify your plan with the FFO-BLM.

All hazardous materials associated with your operations along with information regarding their use, storage, transport, quantity, generation and disposal must be reported to the FFO-BLM.

The use and maintenance of the Joy road and the Brush Wellman road must be coordinated with Juab County. At the time of authorization of the plan of operations the two track road that is to be improved will be subject to BLM stipulations under the mining law. The regulation of road improvement and maintenance will be subject to any RS 2477 decisions that may be made in regards to the road.

In the event of an unanticipated cultural resource discovery on BLM administered land, operations in the immediate area will be suspended until written authorization to proceed is issued by BLM. The discovery will be evaluated by BLM and appropriate mitigation measures will be developed in consultation with SHPO and the Proponent. The proponent will be responsible for the cost of evaluation and mitigation.

Authorization of your plan of operations does not serve as a determination of the validity nor ownership of any mining claim included under your notice.

If you have any questions or concerns please contact Matt Rajala, Natural Resource Specialist, at (435) 743-3124.

Sincerely,

Jerry W. Martin
for Sherry K. Hirst
Field Office Manager
