☐ Please check if any of the above information has changed since previous year.

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☐ No ☒ Except for Reclamation work

2. If active, how much ore or mineral was mined? —

3. How much **new** or **additional acreage** was affected during past year? 0

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

no work done

5. How much acreage was **reclaimed** during past year? 8 Acres

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

The reclamation work done was regrading and seeding of the areas where disturbance has occured.

7. What is the **total disturbed acreage** at years end? 3.46

8. Briefly summarize mining and reclamation planned for the upcoming year.
We plan to dig more nodules and regrade the areas as work progresses. It is difficult to reseed the areas for about 1 year because the materials are very dobby. Seeding will be done as soon as a good seed bed can be made.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.

2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
