Re: Transfer of Notice of Intention, Tetla Mine, S/025/006, Kane County, Utah

Dear Mr. Harris:

The Division is in receipt of a Transfer of Notice of Intention for the Tetla Mine located in Sections 14, 15, 16, and 31, T40S, R7W and Section 36, T40S, R8W, Kane County, Utah. The small mining permit currently operated by Mark Johnson of Mark's Utah Septarian Nodules has been officially transferred to you, effective March 5, 1997. A copy of the signed transfer form is enclosed for your files. Please note that this is a facsimile copy of the original transfer, which we never received. We received certification from the notary on March 5, 1997, that this was indeed a true copy of the original instrument.

By copy of this letter, Mark Johnson is hereby officially released from any further mining or reclamation responsibilities at the Tetla Mine site. You are now the official party responsible for all mining and reclamation activities at the site.

Our records indicate that in April 1996, 4.01 acres had not been reclaimed that you will now be responsible for. In addition, there are 6.2 acres that have been regraded and reseeded but not officially released as being successfully revegetated. This does not assume any new disturbance since April 1996. Please be aware that there is a five acre threshold before bonding and a large mine permit is required.

Your annual report for 1996 indicated that only one acre of disturbance remains at the site. A site inspection will have to be made to determine if the acreage mentioned above can be released and that there is indeed only one acre of disturbance left at this site. Please call me to arrange for a mutually convenient time for the inspection.

If you have any questions or concerns regarding this letter or this transfer process, please contact me at (801) 538-5321 or my supervisor D. Wayne Hedberg at (801) 538-5286. Thank you for your help in finalizing this permit transfer.

Sincerely,

Tom Munson

Tom Munson
Senior Reclamation Specialist
