S/053/051
S/025/013

THESE ARE SMALL SCULPTURE ALABASTER QUARRYS MOST OF THE REMOVAL IS BY HAND METHODS, BY NESSESITY. MACHERY IS USED TO TEMPORARILY REMOVE OVER BURDEN & REPLACE IT, OR TO IMPROVE HAULING ACCESS. BLASTING WOULD RUIN THE MATERIAL. DUE TO THE SMALL SIZE OF THE OPPERATIONS RECLAMATION WILL BEST BE ACCOMPISHED AT QUARRY CLOSURE. THIS WILL BE DONE EASILY WITH A CATAPILLAR & RESEEDING AS NO SOIL IS REMOVED FROM THE SITES. UNLESS THE NEW NATL MONUMENT AFFECTS US WE WILL BE OPERATING FOR MANY YEARS / W/ MOST OF OUR MARKET IS PRESENTLY IN THE US & CANADA.

WE WOULD APPRECITE ANY HELP THE STATE COULD GIVE US RELATING TO THE NEW MONUMENT STATUS & ANY INFO ON LEASING STATE LAND WITHIN THE MONUMENT.

THANK YOU

MIKE DETTAMANTI
