MESSAGE: Randy:

Here is the bid "new" From McClleland Lab's.

Some of the Prices Have been Reduced.

The Sample Prep should be done on a time basis, Thus I believe it will be cheaper.

I will let you talk with Clayton Chappell at McClleland and further discuss the Prices. The Analysis is large thus I still think they can come down in Price.

McClelland Lab's 702-856-1300.

Thank Jim.
