Telephone Report July 21, 1986

At 1345 I called Mr Mike Hawking at 415-460-6655 to inquire about AT+T's right of way for reflectors on the north end of Sevier Lake. Mr Hawkins was not in but he called back at 1405. I explained the purpose for the call being to find out if the proposed dike by Mr Godbe would cause any adverse impact to their R/W. He said he didn't think so but would get back with me after talking to his engineers.
