I received a phone call from William Petty today regarding the purchase of the Happy Jack site. He indicated that the deal was going through and that Joe P. Beirschied was going to be reclaiming the Happy Jack in between Feb. 10 1991 and May 1st 1991. The down payment for the Happy Jack was also going to pay for the reclamation completion of the Radium King. I indicated I would contact Beirschied to make arrangements for a reclamation date.
