SUBJECT: Purchase and Permit Transfer Happy Jack Mine

DATE: 9/29/92

I spoke to Joe D. Beirshied today concerning the transfer of the Happy Jack permit. The new owner proposes to develope portions of the site for non-mining related purposes (see attached fax). After speaking with Lowell Braxton and Wayne Hedberg, we agreed that the proposed development could be designated non-mining (as define in our rules). These areas would be removed from reclamation obligations during the permit transfer. The new operator/owner will submit new maps, indicating exempt areas, with the transfer package.
