SUBJECT Ma Vida Mine Partial Reclamation

DATE 4-12-91

Tom,

Please find attached a copy of the Ma Vida file M/057/028. The operator wants to reclaim portions of the site to gain surety release. The operator is no longer the property owner (see contract in file). Apparently Energy Fuels got two years ago. The operator and owner are not communicating, and the owner has not formalized a transfer with us. The site is a mess and unsafe. What is our liability if we give the operator the go ahead?
