COMMENTS:

Mr. Munson:

I wanted to follow-up with our discussion on the phone this morning. To begin with, if my call to you this morning asking if you needed additional information was "harassing" you I apologize. I also want to emphasize that Summo and/or myself have in know way limited your access to Hydro-Triad. When I have asked questions of you regarding comments and concerns about the Lisbon Valley Project, the intent was/is to be able to understand your concerns and to track Hydro-Triads activities for budgeting purposes, and to make sure we were getting what we paid for.

During our discussions over the phone in November, I took general notes. However, the Divisions letter to Summo dated 10/21/96 was what I provided to Hydro-Triad to satisfy your needs. If this was in error, again I apologize.

As I stated on the phone this morning, I will forward on your written fax comments (12/10/96) to Hydro-Triad. If you have questions or additional direction, please feel free to contact Troy Thompson directly. I only ask that you keep Summo apprized of additional requests so that we can understand your concerns and can track Hydro-Triads progress.

Pat
