MEMORANDUM

DATE: September 23, 1994

TO: Jim Smith - DOGM

FROM: David E. Hansen

PROJECT: Water Quality Monitoring Program for July 1994.
Project No.: 125.01.100

We recently received data from ChemTech for the White Oak monitoring program for July and submit it herein for your reference. Stations which were shown to be dry included VC-4, VC-5, VC-12, and S24-12. All other stations were sampled resulting in the attached water quality analyses.

Enclosed with this submittal are:

- Updated water quality summary tabulation sheets for each station.
- Water quality data sheets submitted by ChemTech.
- Flow calculation sheets for stations monitored with a current meter.

Should you have any questions, please call.

HANSEN, ALLEN & LUCE, INC.
