Subject: Summo Plan, Edited Version

The Trust Lands administration is in receipt of your letter, dated April 29, 2005, concerning the increase in acreage of the SUMMO, USA, Lisbon Valley Project, M/037/088, in San Juan County, Utah. The acreage disturbance increase appears to be planed for lands not under the Trust Lands Administrations management. Any mine development within the Centennial Pit, on the north end of Section 36, appears to be within an area that had already been disturbed by previous mining and does not significantly vary from the original mine plan. If applicable the Trust Lands Administration grants approval of the expansion, as depicted on the April 28, 2005, Construction Activity map that accompanied your letter of April 29,2005.
