RE: White Oak Mining & Construction Co., Inc. ("White Oak") -- Petition
for Relief from Division Order No. 94-B

Dear Director Carter:

This letter confirms my conversation with Lowell Braxton, Assistant Director, Utah Division of Oil, Gas & Mining, regarding the Division's agreement to allow snow removal activities on White Oak's haul road effective immediately. As you are aware, White Oak has filed a petition for formal hearing and temporary relief from Division Order No. 94-B which states that White Oak's snow removal plan "is not adequate to permit future snow removal activities on the Belina haul road." Mr. Braxton agreed that it was not the Division's intent to threaten public safety by issuance of Division Order No. 94-B. Therefore, Mr. Braxton has agreed to allow White Oak to continue snow removal consistent with the Mining & Reclamation Plan ("MRP") Addendum submitted on August 26, 1994.

It is White Oak's understanding that it can continue to conduct future snow removal activities consistent with the MRP Addendum dated August 26, 1994 pending Board review and issuance of a final order regarding White Oak's pending petition for formal hearing.

It is also White Oak's understanding that further enforcement activities threatened in the Division Order are stayed by the Division pending Board review of this matter.
