MEMORANDUM

DATE: November 4, 1994
TO: Daron Haddock
FROM: David E. Hansen
PROJECT: Water Quality Monitoring Program for October 1994.
Project No.: 125.01.100

*Route to Han,
Then file
125.01.100 #7*

We recently received data from ChemTech for the White Oak water monitoring program for October 1994 and submit it herein for your reference. Stations which were shown to be dry included S7-11, S24-12, S36-19, VC-4, VC-5, and VC-12. All other stations were sampled resulting in the attached water quality analyses.

Enclosed with this submittal are:

- Updated water quality summary tabulation sheets for each station.
- Water quality data sheets submitted by ChemTech.
- Flow calculation sheets for stations monitored with a current meter.

Should you have any questions, please call.

HANSEN, ALLEN & LUCE, INC.
