# PHONE CALL/CONVERSATION CONFIRMATION

CONTACT Dave Moody DATE 4/23/90

PHONE NO. ( 404 ) 521- ~~563~~ 5673 OFFICE G-P

SUBJECT Mining activity / waste disposal

COMMENTS

Mr. Moody was unaware of disposal activity until he was at mine in March, 1990. He's not sure if his Environmental Coordinator is aware of it either. He had believed that wallboard was disposed on Crescent patented claims.

Local contact should be D.C. Corbill, Plant Manager. Local plant should have been sending correspondence to him.

Mr. Moody needs to visit site with BLM. First opportunity is week of May 7th, which is beyond 15 day limit in case of 4/17/90 letter. Granted extension since Mr. Moody is working on problem & he seems concerned that G-P doesn't have permit.
