RE: Mining Notices UT-056-90-6N and UT-056-91-5N

Dear Mr. Park:

We are in receipt of your letter dated March 24, 1992, concerning the interest of Aggra-Insulite to extend mining related activities through 1992.

Federal Surface Management Regulations require the submittal of a Notice of Intent if the anticipated disturbance is five acres or less. A Plan of Operations will be required if the disturbance is greater than five acres. Your Notice or Plan should include the following:

(1) A map or plan showing your mining claim boundaries and the mining claims where the work will occur.

(2) A plan showing access roads that you intend to use or build and the areas that you plan to use for your operations, including the locations of any proposed structures.

(3) A statement as to whether you will be operating on areas already disturbed by mining or if new areas will be disturbed by mining or mining related activities.

(4) A statement as to whether cyanide or other toxic materials will be used in your mining operations.

(5) A statement describing your proposed operations and how you propose to perform them. You should identify types of equipment, explosives and support facilities that you plan to use.

(6) A statement as to whether Aggra-Insulite will do any milling or processing within their claims.

1. If you want this receipt postmarked, stick the gummed stub to the right of the return address leaving the receipt attached and present the article at a post office service window or hand it to your rural carrier. (no extra charge)

(7) The location of stockpiles, spoil piles, milling, access construction and maintenance, and your plan to dispose of waste rock from the crushing operation.

(8) Since Federal regulations require recontouring and revegetation of all disturbed areas, we are requesting a description of proposed reclamation.

This office will process your Notice of Intent or Plan of Operation upon receipt. If you have any questions, contact Ray Audette at 896-8221.

Sincerely,

Gary L. Hall

Acting Area Manager
