Department of Nat. Resources
Division of Oil, gas & Mining

To Whom It May Concern;

In 1997 we plan on working both the Golden Gem No. 1 and the Rose Bud No. 2. On both the Golden Gem No. 1 and the Rose Bud No. 2 the portals are well secured and not a threat to the public. Both the Golden Gem No. 1 and Rose Bud No. 2 are permited and when the mining is completed they will be reclaimed.

At present there isn't over 1½ acres disturbed.

In 1996 we didn't work the Golden Gem No. 1. We did developement work in the Rose Bud No. 2. We produced more but, removed about 200 tons of waste.

In 1997 we would plan on doing under-ground work on both the Golden Gem No. 1 and the Rose Bud No. 2.

Sincerely yours
Lawrence W. Prisby
