COMMENTS Hillyard stated he called 3 weeks ago and spoke to District & Area Manager. He's had an injury that's prevented him from working the claim/notice area.

He plans to re-file his claims. I told him that his operations appear indefinitely suspended. He said he would supplate his 3809 Notice. He plans to visit BLM within next two weeks to discuss his plans and to determine what needs to be done to supplate his activity. He still plans to open a mine.
