SUBJECT Notice of Noncompliance

COMMENTS

Dick Hilyard visited me today. We discussed his noncompliance with his Notice and the 3809 regulations. He agreed to:

1) make all equipment operable or remove from site
2) reclaim the pits
3) clean up spill (hydraulic fluid) & site

He would like to re-start his operation. We agreed that he would accomplished the above tasks first before the BLM would accept any new surface disturbance. He'd like to keep the constructed road & settling pond for future operations. He plans to be clean up the site this weekend and Labor Day weekend. He agreed to contact the BLM upon completion of the above before filing a new Notice.
