C. Kiesling 2/28/90

Clients:
SIMA tests parts - automotive
National Hot Rod Assoc - racing

Rec. Problem:
geol. studies
BLM "
Kaiser study
} ∴ potash mining → salt thinning

Wants:
1) something done in the interim (during 3 yr study)
1.1 load swaps possible - focus on areas where most damage is now seen
1.2 moving or closing down portions of ditches
1.3 purchase of lands - put in trust
1.4 reclamation - dump salt back - surface, back pumping, etc test during study

Meetings:
BLM - SLC - Zeller
BLM - DC - Odden

2) states position
