B. DEGREE OF FAULT (Only one question applies to each violation; check one and discuss.

() No Negligence

If you think this violation was not the fault of the operator (due to vandalism or an act of God), explain. Remember the permittee is considered responsible for actions of all persons working on the mine site.

() Ordinary Negligence

If you think this violation was the result of not knowing about DOGM regulations, indifference to DOGM regulations or the lack of diligence or reasonable care. Explain.

**Main road to mine, should be seen daily by mine officials. Also, the ditch at the loadout should be seen during routine inspections.

() Recklessness

If the actual or potential environmental harm or harm to the public should have been evident to an operator, describe the situation and what if anything, the operator did to correct it prior to being cited.

() Knowing and Willful Conduct

Was the operator in violation of a specific permit condition? Did the operator receive prior warning of noncompliance by State or Federal inspectors concerning this violation? Has DOGM or OSM cited the violation in the past? If so, give the dates and the type of warning or enforcement action taken.

C. GOOD FAITH

1. In order to receive good faith for compliance with an NOV or CO, the violation must have been abated before the abatement deadline. If you think this applies, describe how rapid compliance was achieved (give dates) and describe the measures the operator took to comply as rapidly as possible.

**Violations could be corrected within one day. The violation was completed as of 4-1-93.

2. Explain whether or not the operator had the necessary resources on site to achieve compliance.
