Re: Permitting Concern, Cargill Salt, Timpie Solar Ponds, M/045/030, Tooele County, Utah

Dear Mr. Jones:

We recently sent notice of the Division's intention to issue tentative approval for Cargill Salt's Large Mining Operation. If no substantive comments were received during the public comment period, the Division could then issue final approval after receiving the required reclamation surety and Reclamation Contract.

As a result of that public notice, we received notification from the Resource Development Coordinating Committee that the mine is subject to Utah Air Conservation Rules for Fugitive Emissions and Fugitive Dust. If you have not already done so, please contact the Division of Air Quality at (801) 536-4000, 150 North 1950 West, Salt Lake City Utah 84114 for their permitting requirements.

Please send us notification that you have obtained the appropriate Air Quality permit(s) or a letter from them stating that permit(s) will not be required for your operation.

Thank you for taking care of this concern. If you have any questions, please contact me at (801) 538-5321.

Sincerely,

Tom Munson
