SUBJECT Aragonite Mine Tooele County

DATE 1-2-91

I spoke to Rod Thompson of Tooele County today about the Lon Thomas operation in Tooele County. He indicated that as far as he knew the county did not have any permits from Thomas or bond, but he would look further and get back to us by friday this week. Also, the County is very concerned about the safety of the operation and wants to do something about it. There are also some problems ~~involved~~ associated with the mill site that would involve State Health and Social Services
