☑ **Please check if any of the above information has changed since previous year.**
State leases ML 45095 and ML 45470 are included.

II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☐ No ☑
2. If active, how much ore or mineral was mined? _____

3. How much **additional acreage** was disturbed during the past year? 1/2 acre

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

Partial restoration of old, original roadway; back-filled old shaft and caved winze — all on privately owned, patented claims #6519. State leases ML45095 and ML45470 are adjacent, but no activity on them.

5. How much acreage was **reclaimed** during the past year? 0.2 acre

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

Filled old shaft and caved winze, and restored old, original road over the top of them.

7. What is the **total disturbed acreage** at years end? 2.5 acres

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

(1) Complete about 700 feet of old road restoration for drilling sites.
(2) Diamond core drilling of at least two sites, all on patented Mineral Survey #6519
(3) Detailed geologic mapping of both privately owned and State leased lands.

NOTE: Section III., "Additional Information" applies only to **large mining operations**.

III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.

2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. Signature Requirement

I hereby certify that the foregoing is true and correct.
