To: Mr. Daron R Haddock
and whom concerned.

yes I admit that the mining permit fees have not been paid on the White King 5 acre permit located located in the Cedar Mountain Range (Hastings Pass)

A string of events have happened since last year. Mr. Ralph Goodell the CEO for 3MRC passed away. Prior to his death, he had taken over the duties of taking care of this project; due to the heart attack I (Gail Schmardebeck) had in Nov. 2002 in Greeley, Colorado. I have not been able meintally or physical to keep an upper hand since then; however my mending process is improving. The mining claims were not filed on properly with the County or the Bureau of Land management. I don't know if the problem originated with the bureau or the claimants themselves.

Please bear with me in regards to the mining permit; also I'm in the process of relocating three claims in the county and the BLM. Therefore I Request Time to take care of the claims and have them Recorded and Legal.

RECEIVED
APR 0 2 2007
DIV. OF OIL, GAS & MINING

Please wait on the mining permit. There is no need to do any reclamation on the mine permit at this point; however I would like some correspondence from your office regarding this issue.

gentlemen or whom Concerned, lets work Together and Solve the problem as sensible as possible without Conflicts:
