Mr. Richard E. Carlbert
Mining Engineer
American Gilsonite Company
Bonanza, Utah 84008

Dear Mr. Carlbert:

In reviewing your mine plan on Federal gilsonite lease U-0126940 we find the Archeological Survey you submitted in May 1977 covers a corridor 50 meters wide on each side of the vein. This survey does not adequately cover all of the area you propose to disturb on the development of the plan. An addendum archeological survey covering the inadequacies will be required prior to approval of the mining plan.

If you have any questions please call Allen Vance or me.

Sincerely yours,

Jackson W. Moffitt
District Mining Supervisor
