RE: ML 21201 Bit. Sands
Sec. 32, T12S, R25E, SLB&M

Dear Gentlemen:

I was disappointed to find that Enercor failed to mitigate erosional problems at its rainbow project site by May 30, 1984, as was previously agreed to by Mr. Lindsay.

I am enclosing a copy of Mr. Portles memo describing our recent field trip to the site. On page two of the memo you will find Mr. Portles recommendations for further reclamation. Please consider these recommendation as requirements of this office to be completed by Enercor no later than September 15, 1984. Failure to comply will result in my recommendation for forfeiture of your bond, C.D.#101675.

Sincerely yours,

JOHN T. BLAKE
MINERALS RESOURCE SPECIALIST
