Subject: Tar Sands mining expansion
To: danadean@utah.gov

I am totally opposed to tar sands mining let alone the upcoming permitted expansion in the Book Cliffs.

An expansion this large should have full environmental review not the permit by rule your department is track to use for this expansion.

The public needs to be involved in this decision.

Ed Kosmicki/Salt Lake City

Hello Mr. Kosmicki,

Thank you for your comment, we will add it to the file. If you are specifically concerned about the Permit by Rule, that is with the Division of Water Quality, not DOGM. We have a completely separate permitting action and have completed a full environmental review. You can find our review and other documents at ogm.utah.gov.

There will be a public hearing on June 30, 2015 from 9-11 am in the Natural Resources Building in SLC in response to public comment regarding our permit.

Thank you,

Dana Dean, P.E.
