9. Revegetation	☒	☒	☐

Permit Fees: Paid 01/20/2013 **Bond Amount: $18,600**

Purpose of Inspection:

Inspection of reclamation for bond release

Inspection Summary:

No drill holes were found. All the sites had post mining disturbance from off road vehicles and recreational activity.

Conclusions and Recommendations:

The sites be released from bond after trash is removed.

Inspector's Signature Tom Nicolaysen

The first drill site has some camping disturbance. This fire pit seemed to be directly on top of the old drill hole. UTM NAD 83: **E 629267.78, N 4466564.24**

The second hole to the south east of the first was unlocated. Judging by previous inspection photos and UTM coordinates it is somewhere to the south (left) of this small tree. Heavy off road vehicle activity in this area. UTM NAD 83: **E 629368.56, N 4466547.53**

A third drill hole a mile south east of the previous two was unlocated. There was significant disturbance from off road vehicles. This picture is looking west. UTM NAD 83: **E 630335.07, N 4466174.06**

Another picture from the same site looking east showing some of the trash on the site.
