U.S. Steel Taps Payson Man Superintendent of Quarry

PAYSON — Phillip R. Jimrusti, Payson, has been named superintendent of U.S. Steel's Keigley Quarry near here, the firm announced.

He succeeds Raymond C. Johnson, who has retired after more than 31 years of service.

Mr. Jimrusti will head operations at the open-pit quarry which produces limestone and dolomite for steelmaking at the firm's nearby Geneva Works.

A native of Williamsport, Pa., he earned a degree in civil engineering from the University of Wisconsin, Platteville, Wis.

He joined U. S. Steel as a management associate at the limestone operations at Rogers City, Mich.

Mr. Johnson

Mr. Jimrusti

Mr. Johnson, a native of Tremonton and an electrical engineering graduate of the University of Utah,, joined U. S. Steel at its Geneva Works in 1950.
