SUBJECT Informal Approval of Keigley Quarry Amendment

DATE 5/27/92

I spoke to Ray Benson concerning Geneva's response to our question addressing the recent Keigley amendment to initiate mining of a small quarzite quarry adjacent to the Keigley Pit. All questions have been addressed except final grade of the quarry slopes. Ray indicated he would update the info. to commit to 2:1 or lesser slopes. I said we would go ahead with informal approval to be formalized later once the updated info. was received.
