Dear Mr. Brand:

RE: Bond Submittal MR-5 Form, New Burgin Mine, ACT/049/009, Utah County, Utah

Enclosed, please find Bond Form MR-5 for the Sunshine Mining Company's New Burgin Mine received April 23, 1985 by the Division.

Unfortunately, the bond form has not been completed properly and must have all the required information before it can be accepted. The missing information is listed below:

1. On page 1 of the bond form, a legal description of the disturbed land must be attached to the bond as "Exhibit A".

2. On page 2 of the bond form, dates must be provided for the signatures on the lines provided. This is required for both the Company Official and for the Official of the Surety.

3. The title or position of the Company Official must be included on the signature line.

4. Sunshine must execute the bond by affixing their corporate seal to the bond form as indicated on page 2 of the bond form.

5. The permit number as indicated in the upper right hand corner of page 1 should be - ACT/049/009.

6. The Mining and Reclamation Plan was filed with the Division on October 4, 1984.

The complete bond form must be resubmitted to the Division before a final permit can be issued.

A Division letter to Leon Munyan, dated March 22, 1985, directed Sunshine Mining Company to submit the bond within the next month, or the matter would be brought before the Board of Oil, Gas and Mining to determine whether or not operations at the mine should be allowed to continue. Realizing that Sunshine did attempt to meet this deadline, the matter will not be brought before the Board at this time. However, if the revised bond is not forwarded to the Division within 10 working days of the receipt of this letter, this issue will be put on the next Board Hearing agenda.

Questions concerning the information required in finalizing the bond should be directed to Susan C. Linner or Randy Harden of my staff. Thank you for your cooperation and attention to these remaining concerns.

Sincerely,

R. Wayne Hedberg
