RE: Amendment 96A Review, Map R645-301-231.300, White Oak Mining & Construction Company, White Oak Mine, ACT/007/001-96A, Folder #2, Carbon County, Utah

SYNOPSIS

Abatement requirements for NOV 96-7-2-3 #3 of 3 required White Oak Mining & Construction Company (WOMCC) to modify Map R645-301-231.300, to show two culverts present at the base of the White Oak Mine haul road near the turnout in Eccles Canyon. Five copies of these modified maps were submitted on June 5, 1996, during the Division's move into the new DNR building.

ANALYSIS

The old version of the map did not show these culverts. The new plates have the culverts shown and labeled. The permittee is responsible for all activities within their permit area and maintenance of all structures. These maps were certified by a Professional Engineer as required..

RECOMMENDATION

I recommend that this amendment be denied until White Submits the new plates under a PE certification. White Oak submitted 5 copies of this map. They will need to submit 2 (two)additional copies for distribution.
