Genola, Utah

RECEIVED
DEC 30 1998
DIV. OF OIL, GAS & MINING

to whom it may concern

there has been much discussion concerning Valley asphalt + their intentions of putting in an asphalt, cement plant, and a gravel operation in Genola-

I have lived in Genola for 65 years, all my life. I would hope you would consider some of us who have problems with this plan-

We live just below the proposed site. I'm concerned about the dust and other problems-

I have breathing problems, Industrial silicosis, and have to use inhalers, asmeant 3 times a day + sevent times a day, dust is a serous problem for me- We don't live in a city because of air pollution.

We feel this proposed plant has been shoved on to the citizens of Genola by a town board who see only dollar signs, and not the probems it will cause-

Sincerely
Floyd L Nelson
