DIV. OF OIL, GAS & MINING

Utah County Commission or
To Whom It May Concern:

My name is Barbara N. Davis. I live at 366 So. 800 E., Genola, Utah.

I'm writing you because of my concern about the proposed site for a gravel pit a few blocks from my farm.

I have an orchard that will be bombarded by dust mites that will be constantly raised and deposited on my trees causing serious growth problems.

Our community is an agriculture community and we want it to remain so. Thousand and thousands of dollars are spent each year on the care of all the orchards in our area. Constant dust and noise are not conducive to successful raising of grain and hay either.

The site proposed will devalue my property also. I am a widow and my home and farm are my future security.

The numerous trucks coming and going are a concern for the safety of our children who ride buses to school. Traffic will be heavy for such a small place as Genola and Santaquin.

The majority of people do not want this gravel pit so close to their homes and farm. The majority should rule — not the few!

Sincerely,

Barbara N Davis
