I called Mr. Barry Katona of Centurion Mines regarding their association/involvement with this minesite. Mr. Katona indicated they do have an active lease agreement with Mr. Berry. Only conducted some minor surface "rock chip" sampling on the properties during field season of 1990. No surface disturbances created by their "reconnaissance" work in the area. They have no plan to expand their interest or activities in this area. They are not the operator or holder of the claims/lease(s).
