RECEIVED

Debbie J. Peitzsch
Area Manager:

Horace H. Cornelius
P.O. Box 7900-85
Virgin Utah 84779

Dallen Spendlove
Virgin Ut 84779

Both Horace Cornelius and Dallen Spendlove will be doing the work to be done on the Claims. Enclosed, please find a map designating the area in which we will be working, discription of the type of work, including building roads to the area, and removing surface rock, without making holes or disturbing any natural resource. At present there is not - nor has there ever been vegetation of any type in this area, and removal of the rock can be accomplished without any damage to the area in question. Only less than three feet of top soil and rock would be misplaced in the process which we would then smooth out with our equipment leaving no damage or change in structure of the area

Horace H. Cornelius
