

0005

UDOGM HIGHWALL SURVEY  
February 1997

PERMIT NUMBER 007/001

1. Identify each highwall used in connection with the mine and provide a description of its location and extent. (reference maps where highwall is shown)

Highwall number 1 is associated with the White Oak Number 1 mine portals, it is marked in yellow on the maps enclosed. Highwall Number 2 is associated with the White Oak #2 portals - it is also marked in yellow. There is also a possible highwall associated with a spoil storage area North of our bathhouse. It is marked in orange on the map.

2. Provide verification of highwall and adjacent cutslope creation dates. (At a minimum determine whether it was created before or after May 3, 1978.)

at this time I can find no verification as to when these highwalls were created. However, the portals to the number one mine are dated 1976, and I am assuming all of these areas were created prior to this.

3. Provide a reference to the Mining and Reclamation Plan (MRP) which discusses the final reclamation and elimination or retention of the identified highwalls. If no reference exists, state "none".

On page R-17 of 37 in our M.R.P. there are two references which may apply to Highwall #1 and the possible highwall. Also on page R-10 of 37 under the Heading "Mine Openings" it refers to the recontaining of each mine opening. I have included these pages and highlighted the areas I mentioned.

*Please return to Daron Haddock by March 7, 1997*

*gh*

### VACATION / TERMINATION OF NOTICE OF VIOLATION / CESSATION ORDER

To the following Permittee or Operator:

Name White Oak Mining and Construction
