Re: Denial of Bypass Culvert Amendment, White Oak Mining, White Oak Mine,  
ACT/007/001-97A, File #2, Carbon County, Utah

Dear Mr. Dyches:

By this letter, you are notified that the Division has denied the aforementioned amendment to your mine plan.

Your submittal does not contain enough information for the Division to assess this amendment for regulatory compliance and technical adequacy. The submittal includes no cover letter, revised mine plan text, plans, revised maps, or explanatory material of any kind. The Division is thus unable to determine either the purpose for this amendment or even what form it will take.

Please resubmit this amendment and provide clear and complete information which will allow the Division to make the necessary determinations.

Sincerely,

A handwritten signature in cursive script that reads "Joseph C. Helfrich".

Joseph C. Helfrich  
Permit Supervisor
