Subject: Submittal of 4th Quarter Water Data for 1997  
Permit No. ACT/007/001  
White Oak Mining, Carbon County, Utah

#7

Dear Daron,

Enclosed please find a copy of the water data for the 4th Quarter of 1997. In cooperation with a letter dated November 5, 1997 from Pamela Grubaugh-Littig which stated "In the future, you need to send only one copy of the operational water data to the Division".

The laboratory data has not been included with this information, due to a conflict with the laboratory. White Oak will attempt to provide the data to the Division as soon as possible. Included with this letter are surface water measurements for pH, conductivity, flow, temperature, and dissolved oxygen.

The springs associated with this permit were not sampled due to inaccessibility. Snow is a seasonal problem which cuts off access to the springs, however all surface water sites were sampled.

If you have any questions please call me at (801) 561-1555. Thank you for your assistance.

Sincerely yours,

A handwritten signature in cursive script that reads "Vicky S. Bailey".
